Dear Mr. Jones:

RE: Notice of Intention to Commence Small Mining Operations; Utah State
Metalliferous Minerals Lease ML 44600

I am in receipt of the notification listed above, but will be unable to approve your operation under your mineral lease. The activities described in your notification do not include mining on the State Lease. The mineral lease will only cover your processing activities as they are reasonably needed to mine the leased substances. In order for your processing activities to be approved you must first obtain a special use lease (SULA) for surface activities. You can put in an application for a SULA with the Division's Surface Use Specialist in Moab. Contact:
